NOTE: How do different cultures around the world use magic, and how do they use language to communicate with the supernatural? An introduction to the anthropological study of ritual language and magic, this course examines linguistic practices and their intersections with various systems of spiritual beliefs around the world. The course focuses on various forms of ritual language, which include the language of spells and incantations, divination, trance and possession speech, and various forms of prayers. Examples are drawn from different cultures around the world, from the poison oracle used for divination by the Azande, to the trance speech of Mexican spiritualist or followers of possessions cults in Venezuela, from the different forms and functions of Navajo prayers to the magic and spells used in the Trobiand Islands to build canoes and cultivate gardens. Our exploration of the interconnections of language, magic, and other supernatural concludes with an examination of magical language in fictional works in Tolkien?s oeuvre and in J.K. Rowlings?s Harry Potter.

				NOTE: How do different cultures around the world use magic, and how do they use language to communicate with the supernatural? An introduction to the anthropological study of ritual language and magic, this course examines linguistic practices and their intersections with various systems of spiritual beliefs around the world. The course focuses on various forms of ritual language, which include the language of spells and incantations, divination, trance and possession speech, and various forms of prayers. Examples are drawn from different cultures around the world, from the poison oracle used for divination by the Azande, to the trance speech of Mexican spiritualist or followers of possessions cults in Venezuela, from the different forms and functions of Navajo prayers to the magic and spells used in the Trobiand Islands to build canoes and cultivate gardens. Our exploration of the interconnections of language, magic, and other supernatural concludes with an examination of magical language in fictional works in Tolkien's oeuvre and in J.K. Rowling's Harry Potter.
